

OUT NOW...

1. AirFlo Mini Tank

The AirFlo Mini 1.5ml tank features a vertically mounted atomizer coil for improved air flow, this combined with air flow adjustment will give you the perfect vapor.

2. Odyssey™ DDC Air Tank

The Odyssey™ DDC Air Tank utilizes the latest dual coil technology as well as giving the user the ability to control the airflow through the tank by means of a simple, elegant, rotational ring.

3. ONE Rebuildable Atomizer Kit

With a distinctive Wicked camo finish, variable voltage and a large 3.6ml capacity tank - this is the only ONE you'll need.

4. Curve Limited Edition

The gun metal tank and body make this limited edition curve a pleasure to see and use.

5. Electron C3 Supreme

An easy to use, variable voltage/wattage device with the power of the C3 atomizer, 2200mAh battery and 3.6ml capacity tank.

ON THEIR WAY...

ONE Rebuildable Atomizer Kit

The ultra-compact Totally Wicked ONE kit gets even better with the introduction of the ONE RBA Kit. This clever accessory enables you to upgrade your device by building your own atomizer coils.

Available: Late Feb 2015
Price: £9.99

Odyssey™ C3 XL Air Tank

Designed and manufactured by Totally Wicked Engineering in the UK. This new, large stainless steel tank utilizes the very popular C3 atomizer and has a huge 7ml e-liquid capacity and variable airflow control.

Available: Mid Feb 2015
Price: £54.99
