You're not the problem, they are? fix your hair, up and walk out that door with pride, could not see straight for years, what a screaming match, you too, they were in the wrong drunken brawl. Lost a friend who could of supported you for years on, Text them a message and say sorry, they will confess. Shit hit the fan too many times for that person. Buy them lunch. And give each other a Reading. And flowers at the dinner table, good friend will last a long time. Baby sitter crying their eyes out, nobody wants the job? Sit and think for a while. They want you, but to be fussed over. Throw the washing out the door and make them pick it up, they will get the picture

Do what I did throw it out the window. They are too lazy; you do everything for them. Even crackers and toast tell them to get off their ass, could not even get the

banana. And milk shake. Kick their ass. Losing too much weight dear, your bones will stick out, eat fiber.

My, you have grown up, looking very beautiful, you are full of it now, can't complete your exams thou, you have a mental block, use sage in your house, so many parties, that it has blocked you, too many nastiness in the house pulling you down. Tie up your shoe lassies' he's coming back home, been away for a week-end or too, and you sure missed him, buy him a book the one that has been put on the shelf, he will be so impressed, the one you have waited for, but kept it on hold for a while, thought you may be a little rude, by buying it and saying nothing, you'll get the drift. The sales lady was so rude to you: throw a can of veges her way, and say I get more out of them than what I get from your produce, she's a real bitch. Clean out your dresses, high models are going to give you their garments for free; you won't need the old stock. Yes! It's for free, you have been admiring her clothes for some time, with a hint of jealousy, She knows well!, their all yours. Baby news , off spring coming your way, My God it has finally happened, I'm pregnant, Congratulations your husband will be so proud and boasting everywhere, time to take a break from work. Congratulations girl the press is angry something to do with your wedding vows, tell them to shove off, it's not their business, other wards you got married and did not tell them. The drainage in your sink is blocked: there's a diamond ring stuck down their somewhere get a plumber, yes you are going to lose your ring, be careful. Crying for days! Put a protection on the sink. In the bathroom I think be careful. You hair lacks color go to another hair dresser, she doesn't like you, such a bitch, jealous. She's telling everyone what she thinks of you, behind your back. Don't forget to like me on my new face book I would really appreciate it, @Say's a poor pensioner"

Animals coming your way for a commercial, flea protection and r.s.p.c.a, take them on many will buy your records because of it. The New Age Messiah, is watching you from a distance, have a good week-end love Charmaine

**Susan Carrier**

Hello, when am I ready? Well I have "Bells Pausey" which has disfigured my mouth and eye might take another 6 months to a year to come right. Won't be too much longer? And I'm sorting out my PMS I may have fixed that problem? Was sick and depressed for 4 days last week end, but hopefully that is only now and again Taking Vitex from black mores Haven't had a period for 3 months, so it's somehow working for me. Robbie Williams may be interested in helping me too. He's been on the Spirit Plane with me for over 10 years, several times a week, but since now I presume he doesn't get much sleep, it's only once a week or so. Got a Musician doing my music, but I don't know how much he's done? Everything I have worked for is done on faith. Including my future husband and my musician! Waiting for my future Husband 22 years and my Musician 10 years! Send you email address if you would like to look at my New Age Bible, clairvoyants Manual channeled by Alisa (God) and my Music by Elvis Presley and Michael Jackson. My Musician, has The New Age Bible (The Story) sent to him every day by faith. How I made it, and everything else that goes on!

Do you know I live in "Australia's Most Haunted House?" I believe my Teacher who is dead now? Or it's a Metaphor, sent all the Demons and Negative Guides my way to pester me and attack me every day for over 20 years. God came on board after she died? and sorted everything out, I think she kept God away too, and shut me down from work, Including making sure I do not make it. I would talk to her now and again telling her what I am up to and behind the scenes she was stopping me, I did not find out until she died, which was Karma for all the wrong she has done. I think my Bells Pausey was because of all the Spells" that have been done to me. Plus people E.g. Charmaine have stolen my energies and made a name for themselves, and Psychics stolen my work. I'm a very talented Reader, but I have no work. My Teacher did not teach me about "Spells" and told me my path and that Elvis Presley was my Teacher, and let me go unprotected. I did not have a chance in making it.

Hello Delta, My Reiki Master recons it's the silver fillings in my Teeth that have giving me so much ill health for years, Been taking Vitex form Black mores, but I think it has stopped me from doing my Readings as for some time, all I could give

them was up to fifteen minutes, I thought it was them. My Reiki Master is getting me on to a product to help me, and I'm getting my Silver fillings removed in two months and having porcelain ones put in

Now let's put some things in to protective, shall we? The Government is going to increase smokes 12% each year, for 4 years. The pack of smokes, 50 grams will probably cost \$70 or more. Don't you think it's about time you gave The New Age Messiah her music contract and gave people back their smokes, and alcohol. I had energies in my room last night, I thought it was Demons as they have similar energies, I was half out of my body and mouthing off at them trying to get rid of them, but nothing was working. Then I felt a Metal hand on my leg and hand, and I heard "Robot" They said they were Programming me as the car and everything was coming, I also felt a light pain in my groin and they said "No Periods" Remember I am sick every 10 day's due to PMS and there is no way I can be reliable with my music, in this case, and also my Reiki Master thinks it my silver fillings giving me the problem, which I am about to get rid of in the next few weeks, when I have the monies. Well, whatever it means I may be rid of my PMS soon and ready for my music contract. I'm going to smoke my Electronic Smokes now, as I can't even buy food anymore! Don't even have monies, even if I don't buy smokes I'm living on porridge. For dinner! But I've got no choice It's all I got to get through my day, no man, no monies I've been sitting in my recliner day in and out for 12 years with no work just listening to the Radio in my recliner and

smoking whilst writing my book That's all I have to live for. No matter how much I advertise, nobody calls me and if they do their energies are shit and a lot take their reading, and run. Nobody has any monies. I basically do not have any work and haven't for 12 or more years. Yes I'm out their advertised, but nobody calls

Delta I met my children's father when I was 16 at 21 I was left in the gutter with two children. The impact of being on my own with two children the poverty and broken heart, I had a nervous breakdown, and got schizophrenia due to all the mental anguish I suffered. I've been on my own ever since, I am now 48 I've had nothing to offer any one, even no monies to go out for dinner, with someone. Never had any spare monies! My Guides came along and saved my life at 26. They said we will find you a man! Well I met The Entertainer; we chased each other like nobody's business on the dance floor. I worked my butt off all these years to have something to offer him at least have monies so we can go out. And by the way The Government takes my pension off me when my man moves in, and expects him to support me financially, No man is willing or capable to do this! So I was forced to try to pull off the Invention and get a music contract. My man will not come forward until then. Well I've waited for 25 years for my Entertainer, love struck and no other man in sight. God has cornered me so, I will do everything he has in mind, and then he will bring me love I could not have done everything I have done without this man's love. I would have been very mentally ill, in and out of hospital, and I think I would have got cancer or committed suicide. If it wasn't for God s love and the Guides, I could not have lived this life. I've been placed in my recliner, with no monies no man nothing in this world to live for but God has given me something to live for and that is to lead his people to him and make a better world for all.

The Government wants to turn me into a "Prostitute, " and have a man pay all my bills and support me. I'm looking for Love, Thanks, and no man is capable of

supporting me finically, let alone himself God has brought me Elvis Presley after being on my own all these years. He might be my Husband later on. Plenty of sage oil and me, and Elvis to pass the time

Kevin just an insight to let you know what is going on 25 years ago I went to a Medium Teacher, who told me about my future and that Elvis Presley was my Teacher, and in a trance she told me her Teacher was Nostradamus and that she was to write The New Age Bible After she had taught me for a few months, she did not want to know me, I did not know why?, as I thought for many years after that we would have a path together. I would ring her now and again and tell her everything I was up too, 25 years later God comes on Board and tells me everything she has done to me over the years. e.g. I lived in Australia's worst Haunted House, Demons attacking me every night for 25 years, with nobody to help me. Also 12 years ago I went to a Spiritual church and dropped my cigarettes, 3 times, they said that meant something. I also had the Spirit world telling me to give them up, and all my family, friends including the Entertainer that I have waited for, for 25 years, was having a go at me to give up my smokes. Well I did for 3 days, I lost my mind thought I was "Satan" and took an overdose. Size ten to size 22 over night, and 12 years later never have recovered. A few years ago I found out from God that my Teacher was so jealous of me and tried to do everything to stop me from being successful, Including not teaching me about "Spells and Protection" Telling me Elvis was my Guide and leaving me wide open, also sent the Demons to me, closed my Teachings down, and no matter how big I advertised, Radio, \$30.000 advertisement in Yellow Pages, I would get no work. She also got me to give up my smokes knowing I would lose my mind and put a "Seed" in my head of "Satan. God removed "The Seed" last August, this brought Rapist and Killers to my door two of them, at that time, there has been more. I had to go to my mother's for protection and just got out of it by the skin of my teeth. I have now written to President Obama and President Clinton and you, I never have sleep at night because I am protecting myself from people that want me killed. Like tonight!!!!!!!!!!!!!! And, all week.

This has made me realize if you take me on? You have a hell of a job protecting me and my family and everybody connected to me Hope you are up to the job.
